Pocahontas Building walkway to be partially closed in preparation for wastewater pipe work

RICHMOND, VA – Beginning at 6 a.m. on Monday, Jan. 28, 2019, portions of 10th Street between Bank and Main streets will be closed in preparation of work to repair a City of Richmond wastewater line that services the east tower of the Pocahontas Building. Please avoid this area.

The Department of General Services will have a septic truck positioned on 10th Street to service the affected area of the building. Pedestrians trying to enter the Pocahontas Building at the Main Street entrance should approach from the 9th Street sidewalk.

All restrooms and water supplies will remain operational. Visitors may notice an odor in or around the building.

DGS and Capitol Police are to meet with City officials on Monday to discuss plans for further repairs.
